

## Calendar of Events

---

November 21, 2024

### **Locating & Documenting Non-Metallic Buried Utilities (TCH# 04-012101-30) Ocean County**

**Barnegat Fire Company**

**11 Birdsall Street**

**Barnegat, NJ**

08:30 AM - 12:00 PM EST

*Description:*

*This workshop will benefit those who are involved in the location of underground utilities with an emphasis on non-metallic lines, those who supervise staff who provide utility locating services, and those who are responsible for selecting or purchasing utility locating equipment.*

*The session will begin with a classroom discussion of technologies and equipment available for locating non-metallic utilities and will also include a module on preserving this information for use in a GIS system.*

*Weather permitting, some time will be spent outdoors utilizing some of the equipment discussed in the classroom session, including a brief GPR & GPS location demo, and hands-on use of the equipment.*

*The seminar might be postponed due to severe weather.*

*Date/Location:*

*November 21st, 2024 - Barnegat Fire Company. 11 Birdsall Street, Barnegat (Ocean County)*

*Accreditation:*

*3.0 Water and Wastewater TCHs, Course Number: 04-012101-30*

*3.0 Technical credits for NJ Certified Public Works Managers: DLGS-NJWA-209*

*[Download Agenda \(PDF\)](#)*

November 26, 2024

**Locating & Documenting Non-Metallic Buried Utilities (TCH# 04-012101-30) Camden County**

**Brooklawn Senior Community Center**

**102 2nd Street**

**Brooklawn, NJ**

**08:30 AM - 12:00 PM EST**

*Description:*

*This workshop will benefit those who are involved in the location of underground utilities with an emphasis on non-metallic lines, those who supervise staff who provide utility locating services, and those who are responsible for selecting or purchasing utility locating equipment.*

*The session will begin with a classroom discussion of technologies and equipment available for locating non-metallic utilities and will also include a module on preserving this information for use in a GIS system.*

*The seminar might be postponed due to severe weather.*

*Date/Location:*

*November 26th, 2024 - Brooklawn Community Center, Second St., Brooklawn (Camden County)*

*Accreditation:*

*3.0 Water and Wastewater TCHs, Course Number: 04-012101-30*

*3.0 Technical credits for NJ Certified Public Works Managers: DLGS-NJWA-209*

*[Download Agenda \(PDF\)](#)*

December 17, 2024

**Corrosion Control and Water Quality: A Holistic Approach to Phosphate Treatment (TCH#04-0**

**Barnegat Fire Company**

**11 Birdsall Street**

**Barnegat, NJ**

08:30 AM - 12:00 PM EST

*Description:*

*An anticipated impact of the lead & copper rule revision is an increase in both the overall use, and concentration of corrosion additives. This class will help with understanding how CCT decisions can affect the greater environment around us and specifically how those decisions impact both drinking and wastewater chemical treatments. By utilizing equilibrium-blended phosphate, utilities can control corrosion by using up to 90% less phosphorus while minimizing the impacts of chemical treatment decisions as a whole.*

*Date/Location:*

*December 17th, 2024: Barnegat Fire Company.? 11 Birdsall Street, Barnegat (Ocean County)?*

*3.0 Water and Wastewater TCHs, Course Number: 04-072302-30*

*3.0 Technical credits for CPWM, Course Number: DLGS-NJWA-#251*
